2012 – A New Decade for Austin & Stanovich Risk Managers LLC

There is one word to describe us in 2012: grateful. As we end our 10th year as *Austin & Stanovich Risk Managers LLC*, we truly appreciate the confidence placed in us by you, our clients and colleagues.

In January 2002, we created *Austin & Stanovich Risk Managers LLC* to provide risk management and insurance consulting services to all who wanted to do things “right” - business owners, financial officers, risk managers, insurance buyers, attorneys and insurance agents and brokers. Our motto was and continues to be “*Systematic Approach, Technical Expertise, Efficient Solutions*”.

Over the past ten years, we have weathered some challenging economic times together. In 2012 we are pleased to say we have established relationships with over 250 clients throughout the country.

We are thankful for the support of our clients and colleagues and are excited about the prospects of working with you in the years ahead. As the importance of prudent risk management and true insurance expertise continues to increase, we are eager to draw upon past successes to assist you in meeting the challenges and opportunities that lie ahead.

Thank you.
